Foot Extensions

Steel rivet head nuts and eased edge timber for additional safety

All mobile cross country jumps are made using high quality planed and eased timber and treated with Protek® wood preservative which not only protects the timber but gives an attractive golden brown finish.

Steel rivet head nuts are used for fixing which leaves no protruding fasteners for additional safety.

All the jumps start at 16" high and can be made to almost any height you require, please specify your height when ordering.

Both the Pheasant Feeder and Tiger Trap have knock off top rails so if you fancy something a bit more challenging in height they're the ideal choice.

Foot Extension sets are available for an economical way of increasing the height of existing fences.

Logpile Wall	Height								
	18"	21"	24"	27"	30"	33"	36"	39"	42"
